Ref. No. 5620/40 C2.

Station Madras Dated the 11th September 19 40

From (Name) W.G. Dyson Esq., I.F.S.,

(Designation) Chief Conservator of Forests.

To The Secretary to the Government of Madras,

Development Department.

Sir,

pp. 10-11. (E)

With reference to G.O. No. 1054 Ms. Development, dated the 31st August 1933 I submit the following report on the special forest concessions allowed in the South Kanara District during 1939.

-15 below

2. I enclose a statement showing the extent to which the concessions were made use of and were well used or abused. The results were on the whole satisfactory except

p 2 and

in the case of the following eight reserves in which the concessions were abused.

Kasaragod Range.	Puttur Range.	Uppinangady Range.
1. Adoor	1. Veerakambha	1. Padnur
	2. Kalanjimale	2. Porkala
	3. Anegundi	3. Kunthur.
	4. Aivarnad.	

Kalanjimale and Veerakambha Reserved Forests were the worst sufferers.

3. The Conservator of Forests recommends the continuance or the closure of Kalanjimale Reserved Forest for a further period of twelve months from the 1st April 1940 as the abuse continues in spite of the closure ordered in G.O. No. 923 Development, dated the 5th April 1939. I support the Conservator's recommendation. Owing to an oversight in the Conservator's office the report was not submitted in March 1940. The Conservator has ascertained from the District Forest Officer that the closure of the reserve continues in anticipation of Government's approval As regards Veerakambha Reserved Forest the Conservator considers that a severe warning to the villagers would be enough for the present and I agree with him. I am instructing the Conservator to issue the necessary warning to the villagers.

4. I enclose (1) a list of coupes which have to be closed to the concessions on silvicultural grounds and (ii) a list of coupes which were closed in previous years and which will now be opened.

5. The following concessions were approved in G.O. No.1211 Ms. Development, dated the 10th May 1938.

(1) Free removal of Strobilanthus, Macaranga, Trema

Ref. No. 5620/40 C2.

Station Madras *Dated the* 11th September 19 40

From (Name) W.G. Dyson Esq., I.F.S.,

(Designation) Chief Conservator of Forests.

To The Secretary to the Government of Madras,

Development Department.

Sir,

With reference to G.O. No. 1054 Ms. Development, dated the 31st August 1933 I submit the following report on the special forest concessions allowed in the South Kanara District during 1939.

2. I enclose a statement showing the extent to which the concessions were made use of and were well used or abused. The results were on the whole satisfactory except in the case of the following eight reserves in which the concessions were abused.

and Holigarna and all climbers and weeds from all felled fuel coupes at the District Forest Officer's discretion.

(ii) Free removal of green leaf manure of unclassified species and of dry leaves and dead fallen wood, from all Hopea plantations.

(iii) All areas sown with Acacia sundra to be opened to all concessions, and

(iv) Formation of manure leaf felling series in certain specified localities.

Notifications extending the first three concessions were issued in 1938 - see paragraph 5 of Chief Conservator's Reference No. 1797/39.C2, dated the 25th March 1939. As the concessions were not made use of, no notifications were issued in 1939. The Conservator recommends that the above concessions may be allowed in 1940, as a further trial. I support the Conservator's recommendation to re-notify these concessions.

6. As regards the fourth concession, there was an offer for only one coupe of twenty acres in a single reserve in 1938 - vide last sub paragraph of paragraph 5 of the Chief Conservator's report recorded in G.O. No. 923, Development, dated the 5th April 1939. Further attempts to open green leaf manure coupes in 1939 were made by repeatedly advertising the sale of coupe II of this reserve. But there was no offer. The experiment has therefore been abandoned and the Reserved Forest has been thrown open to grazing and to the concession of free removal of green manure leaf of unclassified species and dry leaves of all species with effect from the 22nd September 1939.

7 With reference to G.O. No. 2536 Development, dated the 12th October 1938 attempts were made to sell the right of removal of green leaf manure from fuel coupes in two reserves. There was no demand. The ryots are not interested as they get their requirements from serves and kumakis.

(G)

14. 9. 40.
